NEGATIVE DECLARATION**

PLEASE TAKE NOTICE, that the Town of Lancaster, acting as the designated lead agency under the State Environmental Quality Review Act, has reviewed the following described project, which was a Type 1 action, through its designated Municipal Review Committee, and that committee having found no significant environmental impact, the lead agency, now issues a Negative Declaration for the purposes of Article 8 of the Environmental Conservation Law.

NAME AND ADDRESS OF LEAD AGENCY

Town of Lancaster
21 Central Avenue
Lancaster, New York 14086
Nicholas LoCicero, Deputy Town Attorney
716-684-3342

NATURE, EXTENT AND LOCATION OF ACTION:

The proposed rezone is of a parcel involving approximately 9 acres.

The location of the premises being reviewed is on the east side of Pavement Road, south of Genesee Street.

REASONS SUPPORTING DETERMINATION

The lead agency, the Town of Lancaster, through the review of the Municipal Review Committee, which is made up of at least four (4) members of the Town Board of the Town of Lancaster together with at least three (3) members of the Planning Board of the Town of Lancaster, has found the project impacts to be as follows:

1. There will be a small to moderate impact as a result of a physical change to the project site. Construction will continue for three years. 75,000 tons of gravel is proposed to be removed during this period. Proposed site is 9 acres contiguous to an existing 120 acre gravel pit. Rezone would extend existing pit area approximately 8%.
2. There will be no effect to any unique or unusual land forms found on the site.
3. The project will not affect any water body designated as protected.
4. The project will not affect any non-protected existing or new body of water.
5. The project will have a small to moderate effect on surface or groundwater quality. Be it noted that the petitioner proposes a filtration discharge system for the project.
6. The project will not alter drainage flow patterns or surface water runoff.
7. The project will not affect air quality.
8. The project will not affect any threatened or endangered species.
9. The project will not substantially affect non-threatened or endangered species.
10. The project will have a small to moderate affect on agricultural land resources. Be it noted that the project calls for restoration, namely re-topsoil to agricultural standards with machineable, driveable slopes. Petitioner is currently restoring scrub agricultural lands at other sites within this Township.

11. The project will not affect aesthetic resources.
12. The project will not impact upon any site or structure of historic, pre-historic or paleontological importance.
13. The project will not affect the quantity or quality of existing or future open spaces or recreational opportunities.
14. The project will not effect existing transportation systems.
15. The project will not affect the community's sources of fuel or energy supply.
16. There will be no objectional odors, noise, or vibration as a result of this project.
17. The project will not affect public health and safety.
18. The project will not affect the character of the existing community.
19. There is not, or is there likely to be, public controversy related to potential adverse environmental impacts.
